

# Areco Nebulization

Providing Maximum Freshness

## Areco®, your fresh food specialist

Created in 1998, Areco® is a French manufacturer, pioneer and leader of nebulization and innovative solutions for fresh food systems. To ensure constant innovation, "10% of our turnover is invested into R&D," says Michel Gschwind, CEO.

Areco® is your partner from producer to consumer, proposing solutions to preserve freshness every step of the way.

### OUR MISSION

- **To improve** the quality of fresh products.
- **To help our customers** have the best quality products and improve turnover.

### OUR VALUES

- **Pioneering spirit:** we are constantly innovating to find the best solutions for our customers.
- **Close to the market and customers:** we focus on listening to our customers needs, responsiveness and creating long-lasting products.
- **Honor commitments:** to create an effective and lasting partnership.

### OUR CUSTOMER SERVICE 360°

- **Collaborative projects.**
- **Customer support:** remote diagnostics, in-store training, Guide of Good Practice.
- **After sales support:** installation, maintenance plans, satisfaction surveys.
- **Customer protection:** numerous preventative hygiene measures and Allianz insurance protect our customers.

## With Areco®, find the best price for an unmatched quality

**INNOVATION AT THE HEART OF OUR DEVELOPMENT:**  
We guarantee the best technology. Since our creation, more than 3 million euros have been invested back into our R&D department.

**SERVICE AND REACTIVITY:**  
We offer service plans to ensure the best quality and hygiene of your machine. Please contact your local representative for inquiries.

**100% ORGANIC:**  
We do not use chemical products during regular use nor during daily hygiene procedures. We have created our own patented disinfection process: Thermosure® thermal shock. Areco® also provides Allianz insurance against all possible bacteria risks.

**RELIABILITY:**  
We currently have a 99% success rate for our machines.

**SUSTAINABLE DEVELOPMENT:**  
We design machines with sustainability in mind. We use the best quality materials and focus on the upkeep of the machine to ensure a long product life.

**LOWEST CONSUMPTION ON THE MARKET:**  
Our machines consume up to 4 times less electricity and 2 times less water compared to our competition.

**UNMATCHED PERFORMANCE:**  
Our diffusers are optimized to guarantee 100% coverage of displays. Our fogging technology allows customers to adjust settings to their specifications (velocity, power, shutters, cycle time) to ensure optimum freshness.

## Corporate Social Responsibility (CSR) at Areco®

### SINCE 2001, ARECO® HAS RECEIVED NUMEROUS AWARDS FOR OUR EFFORTS:

"CSR is a business improvement process that absolutely affects all services. It is a revolution as much technological and financial. But above all a revolution in mentality because CSR is in no way incompatible with the growth of a business. CSR has helped reinvent our business." – Benoît Rey, Co-Manager
