

HP MX12 Retail Solution

A new level of retail agility

Deliver an enhanced customer experience at the counter and increase your operational efficiencies with the HP MX12 Retail Solution, which combines a business-class Windows tablet, retail-ready case, and docking station.¹

Versatility to fit your business

Use as a sleek, compact, fixed POS solution and dock in the HP Retail Expansion Dock¹ to access your retail peripherals, or undock and go portable when your business demands.

Keep your business and customers moving

Tackle daily tasks across your business—from inventory to closing sales—with the HP Pro x2 612's powerful Intel® processor. The large 12" diagonal screen keeps you productive by displaying all the info you need at one time.

Make room for revenue

Maximize your available counter space with a small-footprint solution that takes up minimal room and still has an adjustable height and tilt dual-hinge arm so your CSRs can work comfortably. The internal power supply helps keep things tidy.

Security for your solution and critical information

Designed-in security features on the HP Pro x2 612 Retail include fingerprint and smart card readers and HP Sure Start with Dynamic Protection, which helps the tablet protect, detect, and recover from malicious BIOS attacks.

Mobilize your commerce

Attach your third-party mobile payment device to the back of the case to accept transactions on the go, and charge it through the tablet's USB port, accessed by the durable HP Retail Case 12.

Beauty and brawn

Get a stylish solution that looks great and performs even better in fast-paced, often messy environments. The sturdy HP Pro x2 612 Retail is designed to pass MIL-STD 810G², has a damage-resistant Corning® Gorilla® Glass screen, and is reinforced by the durable case.

1. Configured at the time of purchase.
2. MIL-STD testing is pending and not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions. Damage under the MIL STD test conditions or any accidental damage requires an optional HP Accidental Damage Protection Care Pack.
3. Windows® IoT Enterprise for Retail will not be available at launch. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows functionality. See <http://www.microsoft.com>
4. Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
5. For storage drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30GB (for Windows 10) is reserved for system recovery software.
6. Wireless is an optional add-on feature and requires wireless access point and Internet service is required and is not included. Availability of public wireless access points limited.
7. WiFi is an optional feature and requires factory configuration. Use requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products, and in all regions.
8. HD content required to view HD images.
9. Drive Encryption requires Windows. Data is protected prior to Drive Encryption login. Turning the PC off or into hibernate logs out of Drive Encryption and prevents data access.
10. BIOS Absolute Persistence module is shipped turned off, and will be activated when customers purchase and activate a subscription. Service may be limited. Check with Absolute for availability outside the U.S. The optional subscription service of Absolute Recovery Guarantee is a limited warranty. Certain conditions apply. For full details visit: <http://www.absolute.com/company/legal/agreements/computrace-agreement>. If Data Delete is utilized, the Recovery Guarantee payment is null and void. In order to use the Data Delete service, customers must first sign a Pre-Authorization Agreement and either create a PIN or purchase one or more RSA SecurID tokens from Absolute Software.
