CI-200 CASHINFINITY™ Cash recycling system

SMART Cash Management

GLORY Retail Solution offers SMART cash management. It provides total secure closed cash handling, centralised control of cash inventory and optimisation of all cash processes throughout a store. CASHINFINITY is the most advantageous cash management system with remarkable flexibility and extensibility for retailers to fit any size of store, various business segments and each investment plan.

Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

CI-200 – Technical Information

CI-200

The CI-200 cash recycling system consists of a banknote recycler (CI-200B) and a coin recycler (CI-100C), offering improved security and reduced cash handling time in retail applications; during day-open, shift change and day-close operations. CI-200 offers the cashier a quick and easy solution for handling cash in the back office of a retail environment, allowing managers more time to focus on their core business. In addition, there are two different banknote recyclers available; 8 recycle modules plus a collection cassette or a 10 recycle modules variant. This additional flexibility easily meets the needs of any store size and business segment.

- **Data interface port:** LAN
