

# YOU ARE KINDLY INVITED TO VISIT DATAVAN'S BOOTH AT EUROSHOP 2020

Dear Partners and Friends,

We are pleased to announce that DataVan will be exhibiting at EuroShop 2020 in Dusseldorf, Germany from the 16<sup>th</sup> to 20<sup>th</sup> of February 2020 at Messe Dusseldorf Hall 3. DataVan would be located at Booth 162.

EuroShop Expo, is the world's largest trade fair for retail investment requirements. Future-oriented and dynamic as the industry itself, the trade fair presents itself in eight fascinating retail dimensions with all trends and topics that are moving the future.

During the exhibition, DataVan is going to showcase the latest technology innovation in the retail and hospitality industry. We want you to be inspired by our advanced product technologies and aesthetic industrial designs. Come and enjoy the experience, feel our fervency and leave with a sense of DataVan's innovative spirits!

Data Van's booth will feature various self-service live demo of Kiosk Terminals and POS Systems applied in different retail and hospitality scenarios, including but not limited to functions of self-ordering, self-checkin/out, self-scanning for price check as well as status identification. By means of the diverse interactions visitors would have the opportunity to enjoy the immersive experiences over DataVan's solutions along with Apps.

In our showcase you will find highlights:

- **Kiosk Terminal**

The terminal puts modular product design DNA into practice, with a composition of a wide array of device and system. Whether developing from an off-the-shelf model or tailoring a product, we can transform your concept into reality in a time-saving and budget-friendly way.

- **POS System**

Designed for you only. Through a combination of different styles of backplate colors, stands, systems engines and devices, you can create your own unique piece to share your taste for the retail and hospitality sectors besides the fulfillment of essential needs.

- **Mini Box PC**

Packs everything you need into a portable size. This compact yet full-featured computer will do anything you want it to. Perfect for a traditional POS PC replacement, self-service, or business automation.

For more information on how to register for the exhibition, or to have a private meeting with us, please contact us at: [inquiry@datavan.com.tw](mailto:inquiry@datavan.com.tw)
